FACULTY OF SCIENCE

SCI MUNI provides a diverse range of opportunities for incoming Post Docs in all study and research fields.

SCI MUNI usually offers Post Doc positions to both talented recent graduates who received their Ph.D. at an institution other than MUNI and ambitious recognized researchers looking for the second Postdoc assignment who are aspiring to develop own teams with their own projects. In some cases, internal candidates can apply as well.

SCI MUNI as a holder of the HR Award logo takes care of its researchers, continuously improves the working environment, and focuses on their career growth.
